Sale Name: Friday night auction extravaganza; New, misguided freight, returns, LOT 34 - JET Stage 2 Computer Chips/Modules 20710S, Chevy, GMC, SUV/Pickup,

Description

JET Stage 2 performance chips/modules have been programmed to deliver peak power increases under hard throttle conditions, such as towing and wide-open throttle. These modules offer a full-range of DST programming of the air/fuel ratio, ignition advance, and transmission, and are fully track and dyno-tested to ensure the most possible power without affecting day-to-day drivability. Quantity: 1
