

Sale Name: Friday night auction extravaganza; New, misguided freight, returns,
LOT 35 - Leviton LB115-001-0AF 1-Pole 15A 120V AFCI Plug-On Circuit Breaker, White

Description

- Hydraulic-magnetic trip technology allowing circuit breakers to operate as intended over a wide range of temperature extremes: -40°C to 85°C, without features-rating

- Only residential branch circuit breakers on the market featuring an entirely plug-on design for quick installation, saving time and labor costs
- Circuit breakers incorporate LEDs so users can easily identify the trip condition and Type of fault (AF/gf)
- Different blink sequences for parallel and Series arcs
- Patented reset lockout technology to GFCI and AFCI/GFCI circuit breakers exceeds UL safety standards and streamlines installation

Quantity: 1
