LOT 114 - GE CYNC Smart Dimmer Light Switch + Motion Sensor, No Neutral Wire Required, Bluetooth

Description

- Upgrade your smart home and make traditional bulbs smart: The Cync smart dimmer light switch allows you to make traditional bulbs smart. You can control lights from the switch, or from the Cync App using scheduling and scenes
- Add convenience with your WiFi Dimmer Light Switches: Get convenience and comfort with dimming from the Cync App and enhanced functionality like out of home control and scheduling, so you never come home to a dark house
- Easy, DIY Installation: Easy to install on your own or with the help of a professional. Works in homes built prior to the 1980s and requires a ground wire and 2.4GHz WiFi to enable smart control - no neutral wire required
- Alexa and Google Home Compatible (devices sold separately): Using the smart light switch's built-in WiFi, connect to a compatible voice assistant for hands-free voice control
- Save energy and money: Motion and ambient light d
