LOT 337 - Photography Video Light Stand Setup

Description

This product is a photography or video light stand setup. It consists of an adjustable black tripod stand, which is used to hold lighting equipment. Adjacent to the stand, there is a large silver reflective bowl, commonly used as a reflector or a housing for a light source. Inside the bowl, a spiral compact fluorescent light bulb is visible, indicating it's designed for providing bright, energy-efficient lighting. A power cord is also present, suggesting the setup is ready for use in a studio or on-location shoots for consistent lighting.

Quantity: 1
